Aristocrat helps tribal operators build for the future with real products and systems at NIGA 2009

There are many imitators, but attendees at the NIGA 2009 tradeshow will easily spot the real thing in Aristocrat Technologies' Booth #800, which will be filled with the very latest games in Aristocrat's exciting portfolio.

Aristocrat President Nick Khin said, "For more than 50 years, Aristocrat has been leading the gaming industry with innovative games that players love and powerful systems that increase operators' bottom lines. At NIGA 2009, we are helping Tribes build for the future, and we are proud to present a wide range of exciting products perfectly suited for Tribal casinos and their players, for today and tomorrow."

The Native American Gaming Association's annual trade show takes place April 15-16 in Phoenix, Ariz., and Aristocrat has a powerful lineup to attract and thrill attendees, including:

Just when you thought it was safe to go back to NIGA, Aristocrat unleashes *JAWS™*! Based on the Academy Award®-winning film franchise, *JAWS* submerges the player in a total experience. Encasing the game is the award-winning *VIRIDIAN™* cabinet, and from deep in the game rises the familiar "DaaaDa! DaaaDa!" *JAWS* soundtrack. *JAWS*' unique game play is powered by the award-winning *GEN7™* platform and includes 4-level linked progressive jackpots. *Hyperlink®* jackpot triggers with three additional bonus features to create a high bonus frequency for the player.

Aristocrat's exciting, new *VIRIDIAN RFX™ Stepper* features intelligent reel hardware that gives fine-grained reel control and consistently reliable performance. The RFX stepper uses new and more reliable reels co-developed with leading industry reel manufacturer, Gamesman. The specially designed reels were crafted to eliminate "bounce" and thereby eliminate visual fatigue, so players can play longer and in greater comfort, and its cabinet houses two graphic-intense LCD screens.

The Sopranos® video *Double Standalone Progressive™* slot is part of a big family of Aristocrat top-performers housed in the *VIRIDIAN* cabinet and powered by the *GEN7* platform. *The Sopranos* offers a double-standalone progressive with five exciting bonus

features where players win free credits, games, multipliers and progressive jackpots, and is available on two exciting base games: *Respect the Bing!*[™] and *This Thing of Ours*[™]. Aristocrat has upped the ante bringing even more fun and excitement to the penny slot world with *Mega Million\$er*[™], a multi-site progressive that offers higher awards and a life-changing top jackpot. Mega Million\$er is available in the VIRIDIAN cabinet with a multi-game video pack, and as a VIRIDIAN RFX Stepper. The Mega Million\$er grand jackpot startup in GLI jurisdictions is \$1,000,000.

Aristocrat's *Jackpot Royale*[™] sets new standards in the slot world by presenting the first multi-game, multi-denom, double standalone progressive jackpot product. Jackpot Royale is new and exciting because the number of lines automatically changes depending on the denomination the player chooses.

Great games deserve a great system, and Aristocrat's *OASIS 360*[™] is a comprehensive gaming solution for operators of any size or location. Utilizing advanced technology, OASIS 360 is a suite of configurable operational modules that collect, analyze, and report player, gaming, and non-gaming activity. The combination gives casino operators a powerful 360-degree view of their entire enterprise.

As networked gaming continues to fascinate the industry, Aristocrat continues to be the leading innovator. Driven by GSA's G2S protocol, Aristocrat's floor management tool is keenly focused on interoperability. Additionally, Aristocrat's TruServ server-based solution unites players, operators and best-of-breed content in an open-source environment.
