

Stuntman Sam™ brings big screen performances to European gaming floors

London, 23rd September 2011

Aristocrat Technologies today announced its first European VIRIDIAN WS™ (widescreen) Feature Top Box game, Stuntman Sam™.

Stuntman Sam is an entertaining Triple Standalone Progressive game full of fortune-filled features, free games, boosters and stunts, topped with a three-level Power Pay™ jackpot that builds with every bet.

In addition to a 22-inch 16:9 lower screen, the cabinet sports a portrait 32-inch upper widescreen, which delivers crowd-thrilling HD video animations of the fearless Sam risking life and limb.

Three or more scattered wilds (Stuntman Sam badge) triggers one of three bonus features:

- in the 'Claw' feature players must grab a Stuntman Sam toy with an associated mystery prize of either credits, stunt challenges or free games, or a coloured ball that multiplies their credit prize;
- the 'Card' feature awards 3, 4 or 5 free picks (corresponding with the number of triggering scatters), where players select cards to reveal prizes of stunts, boosters, 10 free games or credits; and
- the 'Slot' feature reverts to a 3x3 mini slot game where 3, 4 or 5 scatters are rewarded by 10, 15 or 20 spins respectively and a full roster of stunts, boosters, free games and credit prizes on offer.

Stuntman Sam's player appeal can be seen in the stunts he performs where five different feats offer players immersive gameplay. More than one stunt can be won in a feature and up to two boosters used to enhance each stunt. Whether being shot from a cannon, high diving, motorbike jumping, aerobatic flying or having knives thrown around him, Stuntman Sam offers thrills, spills and rewards.

Scaled Power Pay jackpots are symbol driven with five cannon awarding mini, five aeroplane awarding minor and five helmet bringing in the major jackpot.

Availability is subject to individual jurisdictional approvals.
