

Aristocrat's Hyperloop™ enters European circulation

London, 13th October 2011

Aristocrat Technologies has today announced another gaming option for European players with the release of the innovative Hyperloop™ category.

Hyperloop is the latest standalone gaming innovation released into Europe this year and is supported by two new VIRIDIAN WS™ (widescreen) Bonus Bet games, All Puffed Up!™ and Halloween: Trick or Treat™.

The new release builds on the success of early Aristocrat widescreen platform releases like Mega Pay™, Multi Mega Pay, REMIX™ and Win Your Way™.

Hyperloop seamlessly integrates a mechanical top box with superb on-screen animation to deliver all-round gaming gratification. Upon triggering the game feature, players watch in wonder as balls spin around the Hyperloop, dropping extra multipliers or wilds onto the video reels below.

All Puffed Up! brings to life colourful creatures of the ocean depths, notably an Angler Fish scatter – three of which appearing concurrently trigger the feature – and a stretched wild Puffer Fish, which emerge from popped orange bubbles (dropped from the Hyperloop) to populate reels during free games. This 30 line game has a unique 4x2x3x4x3 reel set shaped in the outline of a fish.

The seasonally spooky Halloween: Trick or Treat is an interactive Reel Power™ game in which three scattered frame symbols trigger the feature, daring players to select between Trick or Treat. Choosing 'Trick' initiates three free games with the Hyperloop awarding one, two or three wild reels for that game. Opting for 'Treat' brings up an interactive match-a-prize screen with the Hyperloop awarding a prize multiplier.

Both new games incorporate a minimum bet of 40 credits, including 10 credit ante bet, their diverse theming and game structure offering scope for side-by-side varied entertainment.

Availability of both Hyperloop games remains subject to individual jurisdictional approvals.
