

Aristocrat Europe new game highlights: ICE 2011

London, 19th January 2011

Aristocrat Technologies is ready to unveil more than 30 brand new games at ICE 2011 along with fresh categories and feature themes. The new GEN 7™ world base means that the majority of new games will be multi denomination, affording even greater flexibility in operators' slot strategies.

Game highlights:

Stuntman Sam™ is a new Bonus Bank™ concept sporting a bespoke feature top box housing a portrait 32-inch LCD display. In this daring new Triple Standalone Progressive game, players meet Aristocrat's latest hero Stuntman Sam as he attempts heart-stopping, death-defying feats to give the player big entertainment value. Wielding multiple features and booster triggers, Stuntman Sam is not for the faint hearted!

New Double Standalone Progressive theme, **Emperor Penguin™** is available on two fun base games: Polynesian Bounty™ and Harlequin Hearts™, each with their own base game feature in addition to Emperor Penguin's five interactive bonus and jackpot features. The five interactive bonuses comprise 'Great Battle', 'Fish'n Penguin', 'Imperial Palace', 'Lucky Dice' and 'Gold Coin'.

Don Quixote™ and **Dragon Emperor™** lead the pack of games in the new REMIX™ category where a triggered REMIX feature spurs the random shuffling of reels or symbols, adding extra excitement and rewarding possibilities. The feature is symbol driven on both games, whilst Dragon Emperor also adds a free games feature to the mix.

Standalone progressive games with Power Pay™ jackpots include **The Temple of Moolah™** and **Wild Romans™**. It's all about the 'moolah' with The Temple of Moolah's bet dependent 5-level symbol-driven jackpot bonuses. Players can choose their prize based on their bet with the progressive bonus awarded when max bet is played. During the feature, bonus wilds are added to the reels for stacked wilds with each free spin creating a more exciting player experience!

More Chilli™ and **More Hearts™** add more fun and favour to Multi Line games with the addition of a Mega Pay™ feature. When the free games feature is triggered, players are rewarded with two sets of reels and further opportunities to build more reel sets (up to a maximum of four) and wild reels with each additional set delivering more exciting ways to win prizes.

Expanding the multi-game experience of their Mega Pay™ cousins, Multi Mega Pay games **Fortune Fantasy™** and **Gzellions™** add extra Reel Power™ punch, allowing players to pay for two, three or four base games played concurrently. Each reel set carries its own free game meter, whilst any super free game features won bring ultimate manifold rewards as free games are unleashed across all open reel sets.
