New Product Release

Aristocrat takes giant leap into Spanish street sector with Big Red™

Aristocrat Technologies has officially launched Big Red™, its first Type B/B+ game for the Spanish street gaming market. The international games developer, renowned for its high performance pedigree in the casino slot machine sector, draws inspiration from the Australian outback for the game's main Kangaroo character.

A five-reel flatscreen video game, Big Red features Aristocrat's trademark 'Royals' playing card symbols, interspersed with antipodean bush characters including an Eagle, Crocodile, Warthog, Eucalyptus Tree and Big Red Kangaroo. The 'Tree' serves as a scatter symbol, whilst hitting the Big Red combination awards players with five Free Bonus Games. High resolution graphic animations and themed sound effects combine to deliver an authentic Down Under playing experience.

The game is housed in Aristocrat's new Spanish market dedicated casino-style cabinet, modular in design to facilitate easy access for maintenance, protected with a host of high security mechanisms, incorporating quality money handling solutions such as Azkoyen coin mechanism and JCM note acceptor, and fully upgradeable to allow the installation of future Aristocrat games.

Aristocrat Europe's Marketing & Communications Manager, Olga Pleguezuelos stated: "Big Red is a unique proposition for Spanish operators; it combines captivating gaming excitement with intense audio-visual entertainment, yet the simplicity of game play broadens the potential audience and provides an ideal solution for attracting new players."
