

# New Product Release

## Sky Heroes™ takes flight across Europe

**Players can now experience the high flying experience of early aeronauts following the European release of Sky Heroes™ theme for Aristocrat's XTreme Mystery Link™. Available for both Viridian™ and XCite™ machines, the theme offers a mini-blockbuster aerobatic display for XTreme Mystery's overhead signage and LCD top box of each linked machine.**

Operators have the ability to set their own denomination, start-up and jackpot values to best suit the venue, whilst the flexible 3-level linked mystery jackpot has over a thousand jackpot settings to choose between. Ideal for theming banks of machines, showcasing Aristocrat's latest games, or creating a gaming 'hotspot', XTreme Mystery Link provides a tailored solution for the casino floor, offering a wealth of choice and gameplay variety.

Sky Heroes is the sixth XTreme Mystery theme released by Aristocrat, adding to a broad variety of creative productions drawing their inspiration from around the world, including Dreamweaver™, Wild Africa™, Golden Pyramids™, Prosperity™ and Island Delight™. In addition to a growing library of XTreme Mystery themes and the benefit of being able to add any game from the XCite and Viridian game range makes the whole package ideal as a customisable centrepiece.
