

ARISTOCRAT TO PREMIERE VIRIDIAN WIDESCREEN™ AND VII™ SLANT CABINETS AT NIGA 2010

LAS VEGAS (April 6, 2010) – Aristocrat Technologies will premiere its latest innovation, the VIRIDIAN Widescreen™ Monitor, at NIGA 2010 on April 8-9 at the San Diego Convention Center. Aristocrat will be in booth #919.

“Aristocrat Technologies is honored to be a trusted games and systems partner by Tribal gaming operations, and we are thrilled to premiere our latest innovation, the VIRIDIAN Widescreen™, at NIGA 2010.” said Nick Khin, President Aristocrat Americas.

Last year Aristocrat’s award-winning VIRIDIAN™ cabinet became an instant industry-wide sensation. Now Aristocrat is proud to introduce three new cabinet innovations to our product portfolio in the VIRIDIAN Widescreen™, the Vii™ slant and the exciting new VERVE *hd*™. Powered by the GEN7™ platforms, these new cabinet offerings will provide players an even more enjoyable gaming entertainment experience through our improved ergonomics, 13 button panel support, exciting new LCD programmable button technology, easier accessibility and larger 22” LCD screens.

Aristocrat will also be showing a wealth of games, including the community style gaming sensation *Beijing Bonanza™*, new games *Beat the Bandits™*, *Jeff Foxworthy’s™ Redneck Rumble™*, *Kentucky Derby™* and *XRP RFX™* and proven performers like *JAWS™* and *Hit the Heights®*.

Great games deserve a great system, and Aristocrat’s Oasis 360™ system is installed by more operators than any other CMS, and was most recently enthusiastically embraced by the Choctaw Nation of Oklahoma. Oasis 360 now monitors more than 9,300 devices in Choctaw casinos throughout Oklahoma, including all devices at the stunning Choctaw Casino in Durant, which celebrated its grand opening earlier this month.

Aristocrat installed and deployed the Oasis 360 system at seven casinos in just over a year’s time, with each property becoming entirely Sentinel® III Ethernet. The response at the property has been overwhelmingly positive, both from management and from customers.
